HOW MUCH ENERGY CAN SDH SAVE?

A solar field with 1,000 m^2 provides **10 million kWh** over 20 years in Central Europe.

30 %
more output in
Southern Europe

10 MILLION kWh SOLAR HEAT IS EQUAL TO

- **1.10** million m^3 of gas
- **1.12** million litres of oil
- **2.75** million kg of wood
- **1.35** million kg of coal
